**Subject:** Sample Location Feedback  
**Attachments:** Background Study Sample Locations Access.xlsx

Hey Cordel – Took a look today at the proposed locations to determine if we have access. I've attached a spreadsheet with those locations we already have access. A few are close to parcels with access and I'd like to see if we could move them. I can't recall which colors mean we are collecting and which colors we are using previous data. Could you let me know how many samples we'd have if we collect those we have access. (I'll use that info to determine if we need to call to obtain access for the locations without access).

Rob
